CSS Backgrounds

Create new page and save it.

From the Design Tab select CSS Styles.

Right click and select New CSS Style or from the icon bottom left in the Styles tab.

New CSS Style	X
Tag: body	ОК
Selector Type: O Class (can apply to any tag) O Tag (redefines the look of a specific tag) Advanced (IDs, contextual selectors, etc)	Cancel
Define in: 🔿 (New Style Sheet File) 🔽 💽 This document only	Help

Complete as above

This example will be applied to this page only but if saved as part of the global template, it could be used on all site pages!

The whole page can now be styled, starting with the font styling... Complete as and if required...

Then select Background

ategory	Туре
